

# ADDENDUM

July 6, 2016

TO: PROPOSERS UNDER REQUEST FOR PROPOSAL  
ITB NO. **16-100740**

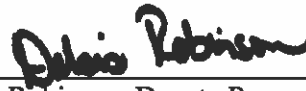

FROM: Department of Purchasing and Contracting, DeKalb County, Georgia  
For additional information, go to:  
<http://yourdekalb.com/purchasing/index.html>.

## ADDENDUM NO. 1

The following questions were received for ITB No. 16-100740 "Night Vision Devices – Long Range" and are hereby answered in *Italics*:

1. There is a very strong probability of image tube deterioration, which we want to avoid during T & E, especially if people are firing heavy caliber weapons through the sights. Please let us know the type of weapon that will be used for testing.  
*A). A .30 caliber or better weapon.*
2. Why are the end users asking for a Long Range Weapon Sight and only requiring it visibility out to 100 meters? Long Range typically implies 500-800 meters.  
*A) The 100 yards was placed in there as a minimum acceptable distance for our requirements. There are systems that are labeled as "long range" and are only good out to about 50 yards.*
3. On page 2 there is a section labeled All Bids are Subject to the Following: with 10 things listed. Number 7 (Federal Work Authorization Form, Form 33) and Number 8 (Insurance and Bonding Form 25) must be filled out and returned with the bid, however they are not included on the Required Documents Checklist located on page 4. Do these two forms (33 and 25) need to be submitted? If so, where can we find these two forms to include with our bid?  
*A) Those forms don't apply to this "one time buy" bid.*
4. Page 5 is the minimum specifications. Are there any other specifications for the devices? Any brands or manufacturers that are suggested?  
*A) The minimum specifications were published. Please ensure you meet those*
5. Will the T&E sample be returned after evaluation?  
*A) Yes, immediately upon completion.*
6. All other conditions remain in full force and effect.

7. Please acknowledge addenda by signing and returning the Addendum form with your bid.
